PROFESSIONAL SUMMARY

Frontend Web Developer with hands-on experience building responsive, accessible websites with HTML, CSS, and JavaScript. Developed self-initiated projects that emphasize usability, performance, and functionality. Actively strengthening JavaScript skills to build more dynamic, interactive web experiences. Seeking a frontend role at a collaborative, product-focused company that values user-centered design, growth, and practical problem-solving.

EXPERIENCE

Frontend Development Tutor

Aug 2025 - Present

Dot Campus Africa, Nigeria

- Mentor beginners in HTML, CSS, and JavaScript through hands-on lessons that focus on building real projects, helping them gain confidence, understand key concepts and see tangible results as they learn.
- Teach debugging techniques, effective use of developer tools, and problem-solving strategies, preparing learners for real-world development environments.
- Adapt lessons to each learner's pace, improving engagement and knowledge retention.

Frontend Development Trainee

Oct 2024 - Apr 2025

Dot Campus Africa, Nigeria

- Built and deployed multiple responsive websites using HTML, CSS, and JavaScript, helping projects perform seamlessly across devices.
- Applied responsive design principles and accessibility best practices to ensure inclusive, user-friendly experiences for all users.
- Leveraged Git and GitHub for version control and Vercel for deployment, creating workflows that mirror professional development environments.

TECHNICAL SKILLS

Frontend Development: HTML, CSS, JavaScript

Version Control & Deployment: Git, GitHub, Vercel

Debugging and Testing: Chrome DevTools

PROJECTS

Ilisabawn

Handmade Shoe Brand Website

Stack: HTML, CSS, JavaScript

- Developed a multi-page website for a handmade shoe brand, strengthening the brand's online presence.
- Highlighted product craftsmanship through intuitive layouts and high-quality visuals, enhancing brand perception.
- Implemented browsing, pricing, and order inquiry features, enabling customers to explore collections and connect with the brand.
- Optimized for cross-device use to improve accessibility and provide a seamless experience across platforms.

NurtureNest - Personal Project

Childcare Website and Admin Dashboard Prototype

Stack: HTML, CSS, JavaScript, Chart.js, JSON

- Designed and developed a concept website and admin dashboard prototype for a childcare center, showcasing how internal digital tools could optimize record-keeping and improve operational efficiency by reducing manual processes.
 - Implemented enrollment management, daily log tracking, and content updates using mock API integration to streamline staff tasks.
 - Developed interactive data visualizations with Chart.js, giving staff clearer insights into enrollment trends and child activities.
-

EDUCATION

Nov 2011 - Nov 2019

Bachelor of Engineering (BEng), Metallurgical And Materials Engineering

Nnamdi Azikiwe University Awka, Anambra State, Nigeria
